

AccuGRADE LASER & GPS

Are you tired of placing 2nd or 3rd in your job bids?

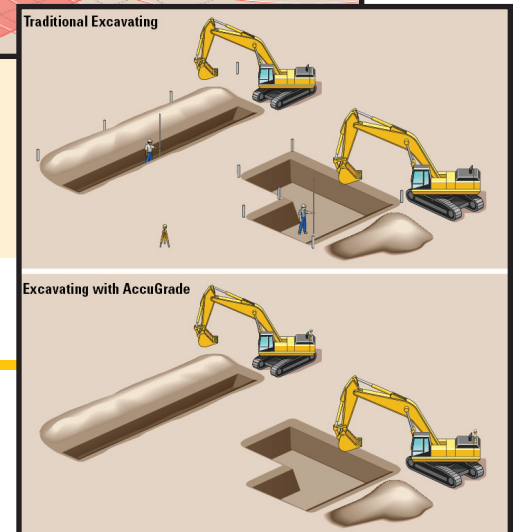

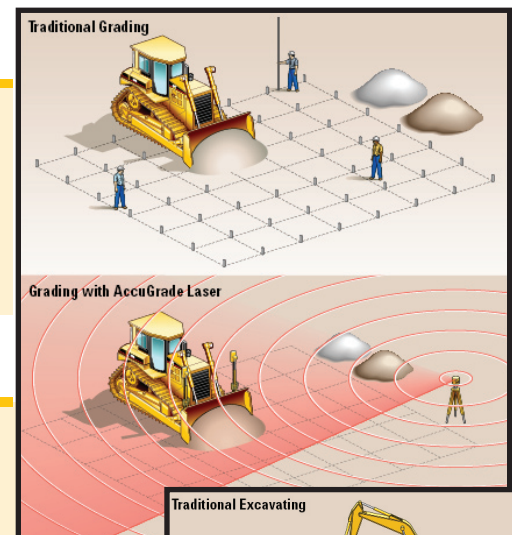

ALTORFER HAS SOLUTIONS FOR YOU!

Laser

- Laser Kits allow you to finish jobs faster & more accurately
- Typical Applications: Building Pads, Parking lots, Water Ways & Ditches
- Single or Dual Mast Laser Kits are available for Dozers

GPS

- Base Stations & Rovers allow more accuracy in your job bidding
- Topo a site before you bid to be more accurate in your dirt quantities
- GPS Machine Kits will increase your productivity up to 50%
- Typical Applications: Parking lots, Laying Pipe, Grading Sub Divisions & Roads
- GPS Kits are available to rent or buy

Customer Testimonial

“ GPS made it possible for us to start and finish six big jobs in 2007. We have doubled our production and are able to focus on strategy rather than worry about doing the job. ”

Monty Swearingen
Swearingen Excavating, IL

Altorfer Cat, one of the leading Laser & GPS dealers in the country, stocks all of their Dozers (D3-D9), Motor Graders, and Excavators (320-385) “Laser & GPS Ready.” These machines are pre-wired at the factory ready to accept Trimble & AccuGrade Laser & GPS hardware. All machines are calibrated at our facilities ready to go to work. We look forward to serving your machine control and guidance needs for both purchase and rental equipment.
