

CAT[®] *Certified* REBUILDS

The two best investments in heavy equipment:
Cat[®] machines and Cat Certified Rebuilds

ALTORFER

OUR Strengths

- Technical knowledge – all Altorfer Cat Technicians are Cat® Certified
- Warranty – Cat backed warranty; best in the industry!
- Repairs performed to Cat specifications
- Quick turnaround time
- Second life rebuild
- Genuine Cat Parts
- Finance options with Cat Financial
- Dedicated sales force – our product support representatives are on-call and ready to work for you

THE *Best* INVESTMENT

Extend the life of your Cat machine.

A Cat® machine is the best investment in productivity you can make and there is a way to improve it - a **Cat Certified Rebuild**. When most competitive models would require replacement, Cat equipment can be rebuilt to deliver a cost-effective "second life." Cat machines are "**built to be rebuilt.**"

The extensive Cat Certified Rebuild program incorporates the very latest critical engineering updates into your machine at a fraction of the cost of buying new. After a thorough evaluation, including more than 350 tests, and inspections, and the automatic replacement of approximately 7,000 parts, you get a like new machine and warranty. As you'd expect, our quality standards are just as stringent the second time around - because only trained dealer service professionals and only Genuine Cat Parts are used to complete a **Cat Certified Rebuild**.

Level 1

CERTIFIED MACHINE COMPONENT REBUILD / CERTIFIED ENGINE REBUILD (CMCR/CER)

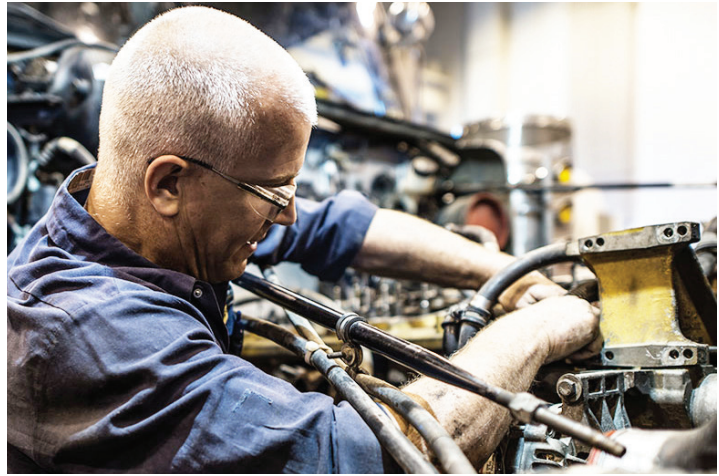

- Restores engine or transmission + torque converter combination to like new performance
- When only one or two components need to be rebuilt
- Assembled and tested to Cat® cleanliness and performance specs
- All critical engineering updates are incorporated
- Extended Powertrain and Hydraulic protection available upon request.
- Optional component removal and installation additional
- Special financing and flexible payment terms available via Cat Financial Commercial Account
- Genuine Cat Parts
- Ask about our 0% interest special financing options

ALTORFER

- New in appearance – fresh paint and decals
- New machine serial number
- Extended Powertrain and Hydraulic protection available upon request.
- Product Link hardware and access to VisionLink included
- Special financing and flexible payment terms available via Cat Financial Commercial Account
- Genuine Cat Parts

WHAT OUR CUSTOMERS *are saying...*

"We will definitely continue with the CCR and CPT Rebuilds as warranted - truly a value to BMC.

Once a machine has gone through its life-cycle, we send it to Altorfer for a rebuild and basically have a new machine for half the cost. Our operators have been impressed with the performance of the rebuilds when they return to production. Not only from the operational side, but cosmetically as well - almost as if it has just rolled off the factory assembly line."

- Chris Dinsdale, BMC Aggregates

"After the success of our first two rebuilds, it was an easy decision to choose Altorfer for our 988F rebuild.

When our first 988F was getting long in the tooth, we spoke with our Altorfer Parts and Service Sales Rep. about the rebuild program. The price difference between new and factory rebuilt was a big factor in our decision to use the Certified Rebuild Program."

- Dave Coots, Coots Materials Co.

YOUR CHALLENGES *and* OUR SOLUTIONS

CHALLENGE

Extending machine life, 2nd life option

SOLUTION

Altorfer Cat offers 3 levels of certified rebuild options

CHALLENGE

Rebuild machine vs. replace and affordability

SOLUTION

Cat Financial Commercial Account and Cat Finance standard options

CHALLENGE

Unscheduled downtime

SOLUTION

Ability to plan and schedule repairs for maximum productivity and uptime
