

Blue/Red Arrow Warning Light

ECCO's EW 2010 LED Pedestrian Arrows are designed specifically for material handling applications to provide a visual warning for pedestrians in the vicinity of mobile equipment.

These lights are intended as a supplemental safety device in addition to a 360° warning light and project a bright blue or red arrow onto the ground either in front or to the rear of the vehicle.

This additional safety feature is especially useful where blind corners are present (i.e. warehouse racking) and is likely to be seen by pedestrians that are not looking up or paying close attention to their surroundings.

Featuring 12-60 VDC operation, an aluminum housing, and polycarbonate lens, the EW2010 is extremely resistant to impact and vibration damage.

Blue Arrow

Part Number: A000047614

Red Arrow

Part Number: A000047805

Features and Benefits

- Blue/Red Illumination
- Three 3-watt LEDs
- Pedestrian warning for material handling applications
- Aluminum heatsink housing
- Polycarbonate lens
- Warranty: 4 years
