

## RAEMTM

## Novibra® type RAEM™

For effective isolation of vibration and noise on machines with rotating movements, the product can be apply to:

- AC Units
- Generators
- Refiners
- Compressors
- Industrial Fans
- Combution Engines
- Industrial/Marine Gensets
- Defibrators
- Emergency Power Sets
- ▼ Large Milling Machinery

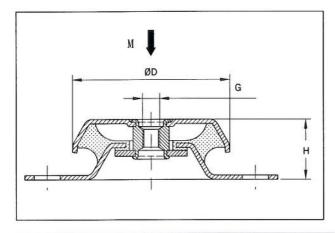

## **Features**

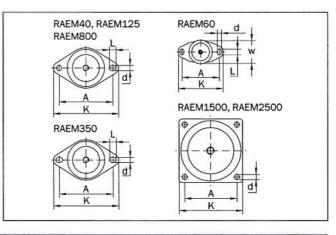

RAEM is a universal mounting for applications demanding maximum isolation. It is a further development of  $RA^{TM}$ , where EM stands for "extra movement". Suitable for both light and heavy machines.

For normal speeds of approx. 1500rpm the RAEM™ type provides a degree of isolation of 85-95%, and gives good isolation with low frequency machines.

Its unique construction and the latest production methods make Novibra® type RAEM<sup>TM</sup> a high performance mounting having a number of advantages:

- Rubber features are utilised effectively combining compression and shear.
- Wide load rating options, 10-3400kg.
- Corrosion protected to cope with arduous environments on land or marine applications (Fe/Zn8C as per ISO2081).
- Fitted as standard with an integral fail-safe design with resilient stop, making RAEM ideal for use on mobile or marine applications. The mounts can accommodate occasional shock loads. The mount will withstand shock loads up to 2g without plastic deformation.
- Clear and durable product marking so that mountings can be identified even after several years in operation.
- Domed shape cover to protect against oil contamination.
