

Marathon Dual Voltage Regulator (DVR) DVR2000E+ Human-Machine Interface (HMI) APS150A Parameters

Parameter Name	Parameter Value	Description
SIZE	431	Frame size of generator
REG	AVR3	Voltage regulator setting for use with a change-over board
	AVR1	Voltage regulator setting for use with a rotary switch
STPT	240 or 208	Voltage set point (Vrms) <ul style="list-style-type: none">• 240 for 240/480 volt• 208 for 208/416 volt
UFRQ	59.8	Under frequency knee (Hz)
DROP	0.0	Voltage droop (%) at rated reactive power
AU	OFF	Auxiliary input is disabled
